BDO France announces the acquisition of June Partners

BDO France is continuing its development with the acquisition of June Partners, a company specialized in supporting transformation projects and improving the performance of SMEs and SMIs. This latest transaction confirms BDO France's growth ambitions in the consulting sector and positions it as the benchmark partner for SMEs and SMIs in France.

For more than 10 years, June Partners has been supporting company directors (SMEs and SMIs) to transform and accelerate the performance of their businesses. As a major player in the consultancy sector, June Partners has a team of over 80 employees, made up of experts in key corporate functions: Finance, HR, M&A, Operations and Manufacturing. With a turnover of almost €20 million, June Partners works with companies of all sectors.

The strength of BDO, the world's 5th largest consulting and audit firm, combined with June Partners' operational excellence in change management and strategic repositioning, will shape BDO France's Advisory offer. This collaboration will create a high value-added service offer aimed at SMEs and SMIs.

This acquisition consolidates BDO France's global expertise across a broader range of business lines and strengthens its competitive position in the French market. Furthermore, it aims to access new business opportunities, increase the loyalty of existing clients and substantiate BDO's employer brand. Finally, BDO France will strengthen its current partnership by welcoming 11 new partners.

At the same time, June Partners will be able to take advantage of BDO France's territorial coverage, capitalise on its international client base, and benefit from its strong investment capacity in order to further its development.

"We are delighted that June Partners' expert teams are joining BDO France. This integration is aligned with our strategic plan to double size by 2026 by capitalising on the multidisciplinary nature of our teams. June Partners will be an ally as we continue our strong growth and strive to become the 5th largest consulting and auditing firm in France", Arnaud Naudan, Chairman of the Management Board of BDO France.

"By joining forces with BDO France, we are entering a new phase in our development. The synergy of our business expertise will act as a catalyst for growth and will enable us to develop and offer innovative solutions that meet the changing needs of the market and our clients. We are driven by the same commitment to operational results, upheld by the high standards of our teams, which have been instrumental in the success of our business". Marc-Antoine Cabrelli Chairman of June Partners.

About BDO France: Working with French companies since 2007, BDO France is a member of the world's 5th largest audit and advisory group, offering its clients the strength of an international network (164 countries with more than 111,300 people). BDO France offers a diversified range of services in all areas of finance, accounting, tax, risk management, information systems and sustainable development. BDO was the first audit and advisory firm to adopt the status of "mission-driven company". Since 2021, it has been uniting its teams and clients around shared objectives that are enshrined in its raison d'être: "A foundation and springboard for those who invest in the future". With its strengthened range of business expertise and talented workforce, BDO France, already a key player in the SME and ETI market, is now in a position to support all players in the economy. About June Partners: June Partners helps companies to accelerate their performance, whether in terms of the top line, improving EBITDA or cash flow. The firm helps to steer and implement the transformation trajectory by prioritising and coordinating all the levers of performance, thanks to its proven knowledge of all the company's key functions (Finance, HR, Manufacturing, Purchasing, M&A, etc.) and the unrivalled experience of the contexts and numerous business sectors of its partners and teams. Our dual background (consulting firm and company), entrepreneurial culture (June Partners is 100% owned by its partners), and commitment (partners spend 70% of their time on assignments) are your guarantee of tangible, sustainable results in the short term. June Partners has 11 Partners, 80 experienced staff, sector-specific senior advisors and business experts working in France and internationally.
